## MEETING DETAILS

### I. PRACTICAL ARRANGEMENTS AND MEETING SIZE

We have calculated an average sum of 600 EUR for the refunding of one meeting participant per (EU member) partner institution into the project budget. Your travel and subsistence expenses have to be refunded on the basis of the EU Commission budget rules. Please refer to the *Section 2: Travel, accommodation and subsistence costs* of the attached document *eligible\_expenditure.pdf* for detailed information - This is really important: we can only refund you the kind of expenses that are accepted by the Commission - so please read this section to avoid any refunding trouble! Do not hesitate to contact me for any questions on the travel expenses.

If all of you are able to participate in the Vienna meeting (in case your work schedule does not allow you to come please ask a colleague of your institution), we can expect between 20 - 25 participants in total.

### II. AIMS AND OBJECTIVES

The Barcelona Symposium will have four main topics:

1. analysing: eCompetence patterns in the case studies and databases
2. model building: towards a conceptual framework of eCompetence
3. implementing: structure and workplan for the final project publication
4. projecting: announcement of the final eCompetence Symposium in Dortmund

### WRITING WORKSHOP

Note: The success of the Barcelona Symposium will depend largely on your input for the final project publication. As agreed during our Symposium in Galway, one of the final outputs of the eCompetence project will be a printed publication. The book will consist of a number of short or long case descriptions, alternated with contributions of more theoretical or analytical nature. Empirical research papers are also welcomed.

To make the Barcelona a success and the final publication real, we like to invite you to submit your finalised paper UNTIL 11 SEPTEMBER 2005 by eMail to [dirk.schneckenberg@uni-dortmund.de](mailto:dirk.schneckenberg@uni-dortmund.de). The full paper should be at least five pages long, either elaborating on your abstract for the Galway Symposium Alternatively you can also decide to select a new topic. Please use the Microsoft Word template "template.doc" for your full paper that you can download from our website. We have ambitious goals for the level and value of this event and intend that each final paper will be published on the web and may form the basis of a subsequent printed publication later in the project.

The deadline for your paper submissions is 11 SEPTEMBER 2005. The full paper should be at least five pages long, either elaborating on the Galway presentation abstract or by selecting a new topic. Please find more information and the template in our website: <http://www.ecompetence.info/index.php?id=93>
